IEEE Contributor License Agreements

IEEE Contributor License Agreements (CLAs) are required when submitting any contribution to IEEE Open Source Projects. The CLAs support specific open source licenses under which the open source software will be made available. If you have questions about the open source licenses (e.g., Apache 2.0, BSD 3-Clause, or CERN 1.2), please visit the organizations responsible for maintaining those licenses.

For example, if the open source software will be provided under a CERN 1.2 license, then the associated IEEE CERN CLA must be submitted with any contributions.

Another consideration that must be made is whether to submit an Individual Contributor License Agreement (ICLA) or an Entity Contributor License Agreement (ECLA). The choice depends on who owns IP in the contribution that you are making.

a) If you developed the contribution and fully own all IP in the contribution, then you would submit an ICLA.

b) If you developed the contribution but an entity owns the IP in the contribution (e.g., your employer or an affiliation), then the entity must complete an ECLA and name you as a person authorized to submit contributions on the entity’s behalf.

c) If you did not create or develop the contribution, you will need to indicate that you are submitting the contribution on behalf of a third party, and then that third party will need to complete a CLA (ICLA or ECLA as appropriate) for the contribution.

A final consideration that must be made is the application of the CLA.

a) If you would like the CLA to be applicable to only a single contribution, then you would indicate that on the CLA. Note however, that you will need to submit a CLA with each and every contribution you make if this option is always selected.

b) If you would like the CLA to be applicable to an entire IEEE project, then you would indicate that on the CLA. Note however, that you will need to submit at least one CLA for each project (you may submit two CLAs if you need to submit both an ICLA and an ECLA).

c) If you would like the CLA to be applicable to all IEEE projects under the license covered by the CLA, then you would indicate that on the CLA. You would not need to submit another CLA unless the owner of the IP differs.

Please be aware that CLAs are irrevocable, once submitted.
IEEE Hardware Grant and Entity Contributor License Agreement ("Agreement"), v 2.0
https://opensource.ieee.org/community/cla/cern-ohl

[This Agreement is based on the Apache Corporate Contributor License Agreement, but is not approved or endorsed by the Apache Foundation. A copy of the non-modified Apache Corporate Contributor License Agreement can be found at https://www.apache.org/licenses/cla-corporate.txt]

IEEE ECLA Number: C-_________________ (will be provided once submitted)

Thank you for your interest in IEEE Open Hardware development. In order to clarify the intellectual property license granted with Contributions from any person or entity, IEEE must have a Contributor License Agreement (CLA) on file that has been signed by each Contributor, indicating agreement to the license terms below. This license is for your protection as a Contributor as well as the protection of IEEE and its users; it does not change your rights to use your own Contributions for any other purpose.

This version of the Agreement allows an entity (the "Entity") to submit Contributions to IEEE, to authorize Contributions Submitted by its designated employees to IEEE, and to grant copyright and patent licenses thereto.

If you have not already done so, please print, complete, and sign, then scan and email a pdf file of the signed Agreement to oscontrib@ieee.org. Alternatively, send an original signed Agreement to Open Source CLA, IEEE Legal and Compliance, 3 Park Avenue, 17th Floor, New York, NY 10016-5997 USA.

Please read this document carefully before signing and keep a copy for your records.

Corporation name: ________________________________________________

Corporation address: ________________________________________________

________________________________________________

________________________________________________

Point of Contact: ________________________________________________

E-Mail: ________________________________________________

Telephone: ________________ Fax: ________________

You accept and agree to the following terms and conditions for (initial one):

___All Your present and future Contributions Submitted to IEEE Open Source Projects; or

___All Your Contributions to the following IEEE Open Source Project:

_______________________________________________________________; or

___Your present Contribution to the following IEEE Open Source Project:

_______________________________________________________________.

In return, IEEE shall not use Your Contributions in a way that is contrary to the public benefit or inconsistent with its nonprofit status and bylaws in effect at the time of the Contribution. Except for the license granted herein to IEEE and recipients of software distributed by IEEE, You reserve all right, title, and interest in and to Your Contributions.
1. Definitions.

"You" (or "Your") means the copyright owner or legal entity authorized by the copyright owner that is making this Agreement with IEEE. For legal entities, the entity making a Contribution and all other entities that control, are controlled by, or are under common control with that entity are considered to be a single Contributor. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"Contribution" means the Documentation expressly identified in Schedule B, as well as any original Documentation, including any modifications or additions to an existing work, that is intentionally Submitted by You to IEEE for inclusion in Documentation developed in, (1) the Open Source Project specified above, or (2) if none is specified, then any IEEE Open Source Projects (in either of the foregoing cases, the "Work"). For the purposes of this definition,

"Submitted" means any form of electronic, verbal, or written communication sent to IEEE or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, IEEE for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by You as "Not a Contribution."

"License" means the CERN OHL v1.2, the full text of which appears as Schedule C to this Agreement.

"Documentation" means schematic diagrams, designs, circuit or circuit board layouts, mechanical drawings, flow charts and descriptive text, and other explanatory material included in a Contribution. The Documentation may be in any medium, including but not limited to computer files and representations on paper, film, or any other media.

2. Grant of License.

A. Grant to IEEE for development of Work(s). Subject to the terms and conditions of this Agreement, You hereby grant to IEEE on a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable basis a copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, sublicense, and distribute Your Work(s) and such derivative works, for the purpose of facilitating the development of the Work(s).

B. Grant to Licensees. You hereby grant to all recipients of Documentation distributed by IEEE, all Your copyright, patent, and other license rights set forth in the License to "Licensees," as defined in the License, in relation to the Work(s).

3. You represent that You are legally entitled to grant the license and the rights set forth in this Agreement. You represent further that each employee of the Corporation designated on Schedule A below (or in a subsequent written modification to that Schedule) is authorized to submit Contributions on behalf of the Corporation.

4. You represent that each of Your Contributions is Your original creation (see section 6 for submissions on behalf of others).

5. You are not expected to provide support for Your Contributions, except to the extent You desire to provide support. You may provide support for free, for a fee, or not at all. Unless required by applicable law or agreed to in writing, You provide Your Contributions on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE.

6. Should You wish to submit work that is not Your original creation, You may submit it to IEEE separately from any Contribution, identifying the complete details of its source and of any license or other restriction (including, but not limited to, related patents, trademarks, and license agreements) of which You are personally aware, and conspicuously marking the work as "Submitted on behalf of a third-party: [named here]" or "Submitted under license of a third-party: [named here]."
7. It is Your responsibility to notify IEEE when any change is required to the list of designated employees authorized to submit Contributions on behalf of the Corporation, or to the Corporation's Point of Contact with IEEE.

Schedule C

Text of the CERN OHL v1.2

CERN Open Hardware Licence v1.2

Preamble

Through this CERN Open Hardware Licence ("CERN OHL") version 1.2, CERN wishes to provide a tool to foster collaboration and sharing among hardware designers.

The CERN OHL is copyright CERN. Anyone is welcome to use the CERN OHL, in unmodified form only, for the distribution of their own Open Hardware designs. Any other right is reserved. Release of hardware designs under the CERN OHL does not constitute an endorsement of the licensor or its designs nor does it imply any involvement by CERN in the development of such designs.

1 Definitions

In this Licence, the following terms have the following meanings:

“Licence” means this CERN OHL.

“Documentation” means schematic diagrams, designs, circuit or circuit board layouts, mechanical drawings, flow charts and descriptive text, and other explanatory material that is explicitly stated as being made available under the conditions of this Licence. The Documentation may be in any medium, including but not limited to computer files and representations on paper, film, or any other media.

“Documentation Location” means a location where the Licensor has placed Documentation, and which he believes will be publicly accessible for at least three years from the first communication to the public or distribution of Documentation.

“Product” means either an entire, or any part of a, device built using the Documentation or the modified Documentation.

“Licensee” means any natural or legal person exercising rights under this Licence.

“Licensor” means any natural or legal person that creates or modifies Documentation and subsequently communicates to the public and/or distributes the resulting Documentation under the terms and conditions of this Licence.

A Licensee may at the same time be a Licensor, and vice versa.

Use of the masculine gender includes the feminine and neuter genders and is employed solely to facilitate reading.

2 Applicability
2.1 This Licence governs the use, copying, modification, communication to the public and distribution of the Documentation, and the manufacture and distribution of Products. By exercising any right granted under this Licence, the Licensee irrevocably accepts these terms and conditions.

2.2 This Licence is granted by the Licensor directly to the Licensee, and shall apply worldwide and without limitation in time. The Licensee may assign his licence rights or grant sub-licences.

2.3 This Licence does not extend to software, firmware, or code loaded into programmable devices which may be used in conjunction with the Documentation, the modified Documentation or with Products, unless such software, firmware, or code is explicitly expressed to be subject to this Licence. The use of such software, firmware, or code is otherwise subject to the applicable licence terms and conditions.

3 Copying, modification, communication to the public and distribution of the Documentation

3.1 The Licensee shall keep intact all copyright and trademarks notices, all notices referring to Documentation Location, and all notices that refer to this Licence and to the disclaimer of warranties that are included in the Documentation. He shall include a copy thereof in every copy of the Documentation or, as the case may be, modified Documentation, that he communicates to the public or distributes.

3.2 The Licensee may copy, communicate to the public and distribute verbatim copies of the Documentation, in any medium, subject to the requirements specified in section 3.1.

3.3 The Licensee may modify the Documentation or any portion thereof provided that upon modification of the Documentation, the Licensee shall make the modified Documentation available from a Documentation Location such that it can be easily located by an original Licensor once the Licensee communicates to the public or distributes the modified Documentation under section 3.4, and, where required by section 4.1, by a recipient of a Product. However, the Licensor shall not assert his rights under the foregoing proviso unless or until a Product is distributed.

3.4 The Licensee may communicate to the public and distribute the modified Documentation (thereby in addition to being a Licensee also becoming a Licensor), always provided that he shall:

a) comply with section 3.1;
b) cause the modified Documentation to carry prominent notices stating that the Licensee has modified the Documentation, with the date and description of the modifications;
c) cause the modified Documentation to carry a new Documentation Location notice if the original Documentation provided for one;
d) make available the modified Documentation at the same level of abstraction as that of the Documentation, in the preferred format for making modifications to it (e.g. the native format of the CAD tool as applicable), and in the event that format is proprietary, in a format viewable with a tool
licensed under an OSI-approved license if the proprietary tool can create it; and

e) license the modified Documentation under the terms and conditions of this Licence or, where applicable, a later version of this Licence as may be issued by CERN.

3.5 The Licence includes a non-exclusive licence to those patents or registered designs that are held by, under the control of, or sub-licensable by the Licensor, to the extent necessary to make use of the rights granted under this Licence. The scope of this section 3.5 shall be strictly limited to the parts of the Documentation or modified Documentation created by the Licensor.

4 Manufacture and distribution of Products

4.1 The Licensee may manufacture or distribute Products always provided that, where such manufacture or distribution requires a licence under this Licence the Licensee provides to each recipient of such Products an easy means of accessing a copy of the Documentation or modified Documentation, as applicable, as set out in section 3.

4.2 The Licensee is invited to inform any Licensor who has indicated his wish to receive this information about the type, quantity and dates of production of Products the Licensee has (had) manufactured

5 Warranty and liability

5.1 DISCLAIMER – The Documentation and any modified Documentation are provided "as is" and any express or implied warranties, including, but not limited to, implied warranties of merchantability, of satisfactory quality, non-infringement of third party rights, and fitness for a particular purpose or use are disclaimed in respect of the Documentation, the modified Documentation or any Product. The Licensor makes no representation that the Documentation, modified Documentation, or any Product, does or will not infringe any patent, copyright, trade secret or other proprietary right. The entire risk as to the use, quality, and performance of a Product shall be with the Licensee and not the Licensor. This disclaimer of warranty is an essential part of this Licence and a condition for the grant of any rights granted under this Licence. The Licensee warrants that it does not act in a consumer capacity.

5.2 LIMITATION OF LIABILITY – The Licensor shall have no liability for direct, indirect, special, incidental, consequential, exemplary, punitive or other damages of any character including, without limitation, procurement of substitute goods or services, loss of use, data or profits, or business interruption, however caused and on any theory of contract, warranty, tort (including negligence), product liability or otherwise, arising in any way in relation to the Documentation, modified Documentation and/or the use, manufacture or distribution of a Product, even if advised of the possibility of such damages, and the Licensee shall hold the Licensor(s) free and harmless from any liability, costs, damages, fees and expenses, including claims by third parties, in relation to such use.
6 General

6.1 Except for the rights explicitly granted hereunder, this Licence does not imply or represent any transfer or assignment of intellectual property rights to the Licensee.

6.2 The Licensee shall not use or make reference to any of the names (including acronyms and abbreviations), images, or logos under which the Licensor is known, save in so far as required to comply with section 3. Any such permitted use or reference shall be factual and shall in no event suggest any kind of endorsement by the Licensor or its personnel of the modified Documentation or any Product, or any kind of implication by the Licensor or its personnel in the preparation of the modified Documentation or Product.

6.3 CERN may publish updated versions of this Licence which retain the same general provisions as this version, but differ in detail so far this is required and reasonable. New versions will be published with a unique version number.

6.4 This Licence shall terminate with immediate effect, upon written notice and without involvement of a court if the Licensee fails to comply with any of its terms and conditions, or if the Licensee initiates legal action against Licensor in relation to this Licence. Section 5 shall continue to apply.
